

IP66 / w Splashguard

MGD - datasheet

Dimensions and Weight:

IP66

175 x 165 x 82 mm – 600 g

6.9 x 6.5 x 3.2 inches – 1.32 lbs

IP66 with Splashguard

175 x 225 x 82 mm – 672 g

6.9 x 8.9 x 3.2 inches – 1.48 lbs

Splashguard (M42 thread)

75 x 50 mm – 72 g

2.9 x 2.0 inches – 0.16 lbs

Applications ▶

The IP66 version is recommended for applications where high levels of dust, moisture or condensation is present.

The sensor is fitted into an ABS head with sintered steel disc which projects outside an IP66 enclosure.

This ensures fast sensor response and prevents condensation reaching the electronics.

It is rated $-40\text{ }^{\circ}\text{C}$ to $+50\text{ }^{\circ}\text{C}$.
($+40\text{ }^{\circ}\text{C}$ with electrochemical sensors)

In heavy spray or wash down areas extra protection can be provided by fitting a splashguard.
